

Nam-Jin Park

Assistant Professor

Department of Control & Instrumentation Engineering,

Pukyong National University

Room 507, Gaon Building, 45, Yongso-ro, Nam-gu, Busan, 48513, Republic of Korea

(+82) 10-7471-7161 | pnj@pknu.ac.kr | https://pknu-507.github.io/MARS/

Last updated: November 11, 2026

Research Interests

Principle Topics

- Control theory
- Multi-agent system
- Robotic & Automation system

Application 1: Multi-Agent Control Systems

- Distance and position-based formation control for multi-agent systems
- Onboard localization for multi-agent systems

Application 2: Robotic Automation Systems

- Multi-drone system for cooperative localizations
- Delta-robot-based intelligent pick & place systems

Education

Gwangju Institute Science and Technology — *Gwangju, Korea*

M.S./Ph.D., Mechanical Engineering, Top Student Award — *Aug. 2024*

- **Thesis:** Controllability and Controllable Subspaces of Structured Networks: A Graph-Theoretical Approach
- **Advisor:** Prof. Hyo-Sung Ahn

Pukyong National University — *Busan, Korea*

B.S., Control and Instrumentation Engineering — *Feb. 2018*

Professional Experience

Pukyong National University — *Busan, Korea*

Assistant Professor - Department of Control and Instrumentation Engineering — *Mar. 2026 - Current*

Kunsan National University — *Jeonbuk, Korea*

Assistant Professor - Department of Electrical Engineering — *Mar. 2025 - Feb. 2026*

Gwangju Institute Science and Technology — *Gwangju, Korea*

Postdoctoral Fellow - Distributed Control and Autonomous Systems Lab. — *Aug. 2024 - Feb. 2025*

Publications

Journal Under Review (International)

Research Experiences

Growth Pathway Support Program for Outstanding Talent in Science and Engineering

Busan, Korea

Funded by the Ministry of Education through Pukyong National University (₩80,000,000)

Sep. 2026 - Present

- **Role:** Principal Investigator

Development of a Self-Protective Smart Battery Module — *Jeonbuk, Korea*

Funded by the Kunsan National University (₩50,000,000) — *Oct. 2025 - Feb. 2026*

- **Role:** Principal Investigator

Development of AI-based Dynamic Graph Generation and UAM Autonomous Operation Optimization System with Real-time Data — *Gwangju, Korea*

Funded by the Gwangju Institute Science and Technology (₩30,000,000) — *Jan. 2025 - Feb. 2025*

- **Role:** Principal Investigator

Establishment and Core Technology Development for Fresh Produce Fulfillment Center — *Gwangju, Korea*

Funded by the Korea Institute of Planning and Evaluation for Technology in Food, Agriculture, and Forestry (₩800,000,000) — *Apr. 2022 - Feb. 2025*

- **Role:** Principal Manager

Development of Autonomous Operation Technology for Multi-UAVs for Stable Control of End-Effector Drones — *Gwangju, Korea*

Funded by the National Research Foundation of Korea (₩123,030,000) — *Mar. 2022 - Feb. 2025*

- **Role:** Researcher

Development of Autonomous Formation and Collaborative Control for Multi-UAVs — *Gwangju, Korea*

Funded by the National Research Foundation of Korea (₩125,000,000) — *Sep. 2018 - Feb. 2022*

- **Role:** Principal Manager

Formation Control of Multi-Agent Systems with Robustness and Security — *Gwangju, Korea*

Funded by the National Research Foundation of Korea (₩100,000,000) — *Oct. 2019 - Feb. 2021*

- **Role:** Researcher

Development of Next-Generation 3D Perception Composite Sensor Module Integrating 3D Image Sensors and Micro LiDAR — *Gwangju, Korea*

Funded by the Korea Aerospace Research Institute (₩170,000,000) — *Sep. 2018 - Jul. 2019*

- **Role:** Researcher

Patents

Application (Domestic) — * Primary Inventor

1. **N.-J. Park***, "자동복구 기능을 갖는 보호회로 및 이를 포함하는 배터리 시스템", KR pending, 10-2026-0030922, 2026.

Application (International) — * Primary Inventor

Conference Reviewers

- Conference on Decision and Control
- Asian Control Conference
- European Control Conference
- Chinese Control and Decision Conference
- IFAC World Congress

Teaching Experience

Gwangju Institute Science and Technology

Gwangju, Korea

Teaching Assistant

Mar. 2021 - Dec. 2023

- General Physics Lecture
- General Physics Experiment

Kunsan National University

Jeonbuk, Korea

Assistant Professor

Mar. 2025 - Feb. 2026

- Control Engineering
- Modern Control Engineering
- Logical Circuit Design
- Microprocessor
- Artificial Intelligence

Pukyong National University

Busan, Korea

Assistant Professor

Mar. 2026 - Present

- Hardware System Design
- Electromagnetics
- Linear Algebra
- Linear Systems
- Applied Robotics
- Capstone Design
